

IEEE Wireless Communications and Networking Conference 2003

CALL FOR PROPOSALS

> DEADLINE: 30 SEPTEMBER 2002

Business Application Sessions and Technical Panels

The Business Applications Sessions (BAS) will focus on business implications, market trends of cutting edge technologies, and applications. The BAS are intended for all conference attendees but particularly for those who are interested in a management perspective. The speakers are technology experts and business executives and the focus is on business implications.

The Technology Panels (TP) will examine the technical challenges and opportunities that are likely dictate the introduction and acceptance of new technologies. The speakers will be technology experts with a broad view of the interaction of competing research and development paths that are likely to lead to significant commercial applications.

Each session will last approximately 90 minutes and consist of brief presentations by several panelists followed by discussion and a question and answer session.

If you are interested in developing a session or participating as a panelist please contact:

Alex Gelman
WCNC'03
Chair - BAS and TP panels
